## Honors and Awards

- 2021 - 2022 *Beverly and Richard Fink Graduate Fellowship*, Department of Economics, University of Minnesota, Minneapolis, Minnesota
- 2019 *Third Place*, Third Year Paper Competition, Department of Economics, University of Minnesota, Minneapolis, Minnesota
- 2017 - 2018 *Edward Coen Graduate Fellowship*, Department of Economics, University of Minnesota, Minneapolis, Minnesota
- 2016 - 2017 *Beverly and Richard Fink Graduate Fellowship*, Department of Economics, University of Minnesota, Minneapolis, Minnesota
- 2016 *Phi Beta Kappa Honor Society*, Mount Holyoke College, South Hadley, Massachusetts
- 2016 *Virginia Galbraith Graduate Fellowship*, Department of Economics, Mount Holyoke College, South Hadley, Massachusetts
- 2016 *Mary Lyon Scholar*, Department of Economics, Mount Holyoke College, South Hadley, Massachusetts
- 2016 *Phoebe Tulman Perlman Prize*, Department of Economics, Mount Holyoke College, South Hadley, Massachusetts
- 2016 *Virginia Galbraith Undergraduate Prize*, Department of Economics, Mount Holyoke College, South Hadley, Massachusetts
- 2015 *Jennifer Dawn Landry '93 Memorial Award*, Department of Mathematics and Statistics, Mount Holyoke College, South Hadley, Massachusetts
- 2014 *Sarah Williston Scholar*, Mount Holyoke College, South Hadley, Massachusetts
- 2013 *Mildred L. Sanderson Prize*, Department of Mathematics and Statistics, Mount Holyoke College, South Hadley, Massachusetts

## Teaching Experience

- 2017 - 2018 *Head Grader: Principles of Microeconomics*, Department of Economics, University of Minnesota, Minneapolis, Minnesota
- 2014 - 2016 *Teaching Assistant*, Department of Mathematics and Statistics, Mount Holyoke College, South Hadley, Massachusetts
- 2013 - 2016 *Department Tutor*, Department of Classics, Mount Holyoke College, South Hadley, Massachusetts
- 2013 *Department Tutor*, Department of Mathematics and Statistics, Mount Holyoke College, South Hadley, Massachusetts

## Research Experience

- 2019 - present *Research Assistant*, Department of Economics, University of Minnesota, Minneapolis, Minnesota. Research Assistant to Ellen McGrattan and Anmol Bhandari
- 2018 - 2019 *Research Assistant*, Department of Economics, University of Minnesota, Minneapolis, Minnesota. Research Assistant to Thomas Holmes
- Summer 2014 *Research Assistant*, Marist Bureau of Economic Research, Poughkeepsie, New York. Research Assistant to Christy Huebner Caridi
- 2012 - 2015 *Junior Commercial Real Estate Appraiser, Research Assistant, and Report Editor*, Valuation Consultants Incorporated (Real Estate Appraisal), Newburgh, New York
- Summers, January 2014

## **Papers**

Kass, Tobey, “Extending Unemployment Insurance to Contingent Workers,” presented at the Heller-Hurwicz Economics Institute Alumni Conference, virtual, June 2021; Society for Economic Dynamics Annual Meeting, Minneapolis, Minnesota, July 2021; Vigo Workshop on Dynamic Macroeconomics, Vigo, Spain, July 2021; (job market paper)

Kass, Tobey, “Income-Based versus Rent-Based Housing Subsidies in the Presence of Search Frictions,” presented at the University of Minnesota Third Year Student Conference in Applied Microeconomics, June 2019.

English (native)

## **Abstracts**

“Extending Unemployment Insurance to Contingent Workers,” job market paper

This paper studies the implications of extending unemployment insurance to contingent workers, while considering the tradeoffs between contingent work and traditional employment for individuals and firms. I document greater dispersion and larger changes in hours worked by contingent workers than by traditional employees, as well as an 11 percent gap in hourly wages. Guided by these results, I develop a model of how individuals and firms choose between contingent work and traditional employment. Contingent work offers hours flexibility to individuals but traditional employment earns a higher wage in equilibrium and has the security of unemployment insurance. Firms hire traditional employees before observing their TFP and must pay administrative costs to hire or fire traditional employees. They can hire (less productive) contingent workers flexibly without these constraints. I find that extending unemployment insurance to contingent workers would generate welfare gains of 0.1 percent in consumption-equivalent units, decrease GDP by 3.0 percent, and increase the aggregate unemployment insurance bill from 1.4 percent of GDP to 3.6 percent.

“Income-Based versus Rent-Based Housing Subsidies in the Presence of Search Frictions”

Many developed countries provide housing subsidies to low-income renters. Recipients in the U.S. pay a fixed percentage of their income towards housing, and the subsidy covers the remaining cost. In other countries, the subsidy is instead calculated as a percentage of the contract rent. This paper documents evidence of search and matching frictions in the rental housing market and examines how these frictions impact the costs and benefits of income-based and rent-based housing subsidies. I develop a directed search model of the rental housing market and analyze the equilibrium effects of subsidies. Under rent-based subsidies, higher matching frictions increase costs for both the households and the subsidy provider. On the other hand, when subsidies are based on income, households bear most of the additional costs of increased matching frictions. In general, income-based subsidies distort households' search behavior more than when subsidies are rent-based.
